A FASCINATION FOR THE BATHROOM

Hartmut Dalheimer, Managing Director

Engelbert Himrich, Managing Partner

Sensuousness and sensibility – KEUCO’s passion for the bathroom runs through its veins, and this is evident in our products. A KEUCO bathroom awakens the emotions. It is an intimate place of well-being. It conveys elegance and luxury, and it combines aesthetics, ergonomics and functionality.

In no other room is this challenge more exciting and demanding than the bathroom. That is why this fascination still drives us forward. Since its founding in the year 1953, our company, which is still family-run today, has undergone a rapid and sustained transformation. From market leader for high quality bathroom accessories, KEUCO has evolved into the brand for the bathroom, with a wide assortment of furniture, fittings, accessories and mirror cabinets and from our early days we focused on offering concepts of complete bathroom furnishings.

Important factors contributing to our success are the contemporary, technically innovative products, the highest standard of quality, a clear orientation towards design, and state-of-the-art manufacturing facilities. Today, KEUCO products are sold around the world, and are market leaders in many areas. They are the result of intensive development work, the use of the best materials, and the most careful workmanship. We combine high-tech manufacturing and involved hand craftsmanship to achieve optimum results. KEUCO quality sets standards: Our products will convince you by their immaculate surfaces, maximum longevity, and perfect functionality. Each article is examined individually before being shipped out.

At KEUCO, the subject of design already played a pivoting role long before it even became a general topic of conversation. Our understanding of design involves striving to achieve classic-modern aesthetics that retain their contemporary feel, even after many years of use. Whether designed in-house or in cooperation with internationally recognized designers – KEUCO products are regularly distinguished by renowned awards.

But timeless design and long-lasting product quality are only two aspects of our sustainability philosophy. Equally important are responsible company management, and resource-saving production – with the help of our own water conditioning system for our electroplating plant, for example. We view the label “Made in Germany” as commitment to the kind of company management that aims to secure jobs in the long term.

KEUCO products are made in our own production plants in Hemer, Gütersloh and Bünde. Inland production provides us with a close proximity that is essential, so that we can develop and utilize the know-how of our employees on a long term basis, and so achieve seamless quality management. And that makes “Made in Germany” a promise of quality.

FREEDOM IS
HAVING A VARIETY
OF POSSIBILITIES

PURE DESIGN – BUT NOT PURITANICAL

The renowned design agency Tesseraux+Partner was commissioned to design EDITION 11. At first glance and at every use the fittings and accessories convey a feeling of: Here is where perfect quality can be found.

The immaculate, hand-polished surfaces, the most careful of workmanship, the most modern of technology, corrosion-free fasteners, and the meticulous checks for leak-proof results on each individual fitting: Only this way a quality grade can be achieved at a level that one can see, appreciate, and which constantly pays off.

LIGHTWEIGHT AND SUSPENDED

Because of its versatility, EDITION 11 offers the highest degree of freedom in bathroom design. This is assured by the selection of surfaces, the range of sizes and many other areas where a choice is available. The fronts, which seem to float on the face of the furniture, lend a special lightweight and elegant feel to the furniture. When the front drawer of the vanity unit glides open, its interior light switches on automatically. Tidiness is made easy with the freely positionable storage boxes. By combining two sizes, a generous work area is created beside the ceramic washbasin. The washbasin with its gently rounded vocabulary of form is available in the materials Varicor® and ceramic.

PERFECT HARMONY

EDITION 11 – The innovative furnishing concept offers a linear design and soft forms, multiplied by an enormous range of variations. For lovers of consistently thought-through designs the ROYAL 60 washbasin represents the perfect complement to the mirror cabinets and bathroom furniture of EDITION 11. In classic, rectangular form, the most convincing thing about the ceramic washbasin both inside and out is its precise, high quality workmanship and flat design. With its generous shelf space all round in the three sizes of 700, 1050 and 1400 mm, it offers individual and creative planning potential for bathrooms of any size. Together with the EDITION 11 vanity unit, which borrows from the washbasin's filigree, linear vocabulary of form, the ensemble adorns any bathroom like an extraordinary jewel.

A washbasin from the ROYAL 60 collection combined with an EDITION 11 vanity unit

ELEGANCE AND COMFORT OF THE HIGHEST STANDARD

The generosity of these EDITION 11 mirror cabinets not only impresses on the outside, but on the inside too. For example, the full mirroring of the rear wall and the inner surfaces of the doors, satin grips, the conveniently placed sockets, an optimal sound system, and many more details.

The model with doors opening to the side is available in panorama sizes up to 2800 mm. In addition to the standard widths of 700, 1050 and 1400 mm more widths can be configured by using freely combinable individual modules of 350 or 700 mm.

PERFECTION FROM EVERY ANGLE

With their formal minimalist design, the EDITION 11 mirror cabinet and light mirror become the centre of attention. Particularly remarkable are the wide light wings on the sides. At closer inspection they turn out to be pivotable, each revealing a mirror that can be pivoted out. So the mirror cabinet and the light mirror both offer a perfect all-round view. At the same time, the intelligent lighting concept always provides individually adjustable, optimal illumination for the face.

The EDITION 11 mirror cabinet also offers high quality and functional features inside, with a slidable interior cosmetic mirror in addition to the rear wall mirror. In tune with the times, Bluetooth and loudspeakers offer a sound system for your favourite music.

BEAUTY MEETS INNOVATION

As a practical utensil for your daily beauty routine, KEUCO's cosmetic mirror iLook_move is particularly impressive thanks to its high quality mirror surface and the slim, elegant design – either round or rectangular, with or without light. But also the innovative unusually refined and durable hinge technology leaves nothing to be desired. With only one grip you can adjust the height of the mirror, the distance to your face, turn it to the side and tilt it for an ideal angle. Designed by Tesseraux + Partner, the glare-free lighting technology with a magnification factor of five has an elegant glass touch panel which offers two different light colours: One for daylight, as also used in professional beauty salons and a second light colour, warm white – a flattering light which, for example, is ideal for ensuring your evening make-up is just perfect. What is absolutely unique is that the two light colours are infinitely variable.

DESIGN PLUS
powered by: ISH

Whether with one light colour or an elegant glass control panel with touch sensors, the iLook_move is hightech for beauty care and at the same time is also a perfectly shaped gem that gives off a sensual aura of elegance. The LED lamps are durable and power consumption is minimal. If a concealed installation is not possible in your bathroom, then a version with a wall plug transformer is available.

GENEROSITY IN LIMITED SPACE

A host's attitude towards guests is shown not least in the bathroom made available to them. Therefore EDITION 11 also presents well-coordinated, impressive furnishings, compatible with each other and a representative guest bathroom. The elegant ceramic washbasin measuring 435 x 435 mm can be installed with a custom-made solid oak wood washtop, or can be combined with a matching vanity unit with one of the wellknown EDITION 11 surfaces. The washtop, made of solid oak wood, is available in different colours – light oak, platin oak and tobacco oak. Bespoke versions are available in widths ranging from 700 mm to 1500 mm.

The light mirror for the guest bathroom not only presents a handy, but also elegant innovation: Two LED illuminated panels, which at the same time serve the function as a shelf. Of course a proportioned fitting as well as a one or two arm towel holder matching the guest washbasin are available.

CLEAR LINES, IMMACULATE SURFACES

The perfect chrome-plated washbasin fittings of EDITION 11 are optimally suited for every kind of use. Whether as a smaller model for the guest WC or especially high for washbasin tops and convenient hair-washing – they fulfil any wish regarding individual bathroom planning.

As with all EDITION 11 washbasin fittings, the wall fitting with single-lever mixer has a flow rate limiter. It is available with three different length spouts.

Three-hole fittings with a difference: Temperature regulation on the left, flow rate on the right. After adjusting to your own desired temperature, by pulling it up, the regulator can be returned to its initial position so that the temperature setting is retained.

The particularly appealing design of the freestanding bath tub mixer with a separate waterway for the hand shower is very impressive. A gem in the bathroom, it can be combined with numerous bath tubs and, no matter what one's personal interior design is, gives every bathroom a special touch.

Shower rail and hand shower reiterate the weightless elegance of the design of EDITION 11. In the four-hole bath-edge fitting with hand held pencil shower head the basic quadratic form of EDITION 11 is reflected in the decor disc. The bath tub mixer shines in immaculate chrome lustre, with flow and temperature regulators situated on the side.

SOOTHING AND REFRESHING SHOWERS

The element of water has always fascinated people. It is particularly fascinating when it takes the form of a waterfall. The aesthetic meTime_spa dousing shower can bring this experience into your own bathroom. The feeling of taking a shower under a waterfall – of allowing the primal power of water act on you – is relaxing for your mind and soul, too. The water treatments inspired by Sebastian Kneipp are perfect for allowing the soothing and relaying effects of water fall on your skin and muscles. With the SPA hose, you can experience the health-promoting alternating hot and cold showers in the privacy of your own bathroom at home and at your leisure.

SELECTED SHAPES IN EVERY DETAIL

KEUCO's typically large variety of products offers a rich selection for attractive bathroom furnishing. For hanging up towels alone, the assortment ranges from classic double towel holders to chic one-armed towel holders and vertical guest towel holders (along with towel bins) which can hold up to six guest towels. The product range also includes an intelligent towel ring, which has an integrated spacer ensuring that damp towels can dry properly at a sufficiently ventilated distance away from the wall.

The chrome-plated shower basket comes optionally with a conveniently integrated glass squeegee. It is easy to clean, and offers generous space for soaps, shampoos, and similar. Because of its rounded form on the inner surface, the handle, with its concisely crafted edges, has an especially pleasant feel to it.

On the right: Soap holder with removable glass dish and the double tumbler holder with mouth-blown tumblers made of crystal glass.

CLEAR LINES AND SENSUAL FEELING

The freestanding accessories of EDITION 11 radiate power and size and embody sense and sensuality with their high-quality matte porcelain. The unglazed porcelain is individually produced in a complex and meticulous process in Meissen. In total there are four porcelain accessories to choose from. They exert their special appeal in the bathroom when combined together: A soap foam dispenser, a universal pot, a tissue dispenser and an elegant dish.

EDITION 300

CHARACTER INSTEAD OF INDIFFERENCE

A STRIKING, ERGONOMICALLY THOUGHT-THROUGH DESIGN

KEUCO design is determined by aesthetics, functionality and ergonomics, not by the kind of logic that characterizes mass production. The fittings and accessories of EDITION 300 clearly exemplify this philosophy and make it something to be experienced. Convenience of use coupled with striking elegance. The brilliance of the perfectly worked surface emphasizes the characteristic contours.

FLEXIBILITY FROM ITS MOST BEAUTIFUL SIDE

Uncompromising in bathroom planning: For everything you envisage EDITION 300 has a matching product for you. You can choose between wall, single-hole and triple-hole washbasin fittings; between light mirrors and mirror cabinets, and between different dimensions and surface combinations. All according to our motto: The more freedom there is in planning, the longer the enjoyment in use. When opening, the drawers of the vanity units slide without a sound. Their dividers offer you intelligently organized storage space in which your body-care utensils won't get mixed up.

COMPELLING VARIETY

The bath-edge fitting is a new development consistent with the EDITION 300 design line. For the shower fittings you can choose between on wall or in-wall installation. All according to your own individual taste and to suit the local construction conditions.

LASTING IMPRESSIONS FOR SHORT STAYS

The guest WC is a special calling card in every house. With its impressive functionality and stylish elegance, EDITION 300 is ideally equipped to leave an excellent impression with your guests. With the small, only slightly projecting washbasin size it's possible to design even guest WCs with much charm. Even the towel holder and the vanity unit with front drawer and integrated towel opening offer much comfort for small rooms.

CONSISTENT COMBINATION MADE EASY

At KEUCO accessories are much more than just useful additions. It is also important that they can be blended in any combination to form a harmonious visual whole, perfectly coordinated to the characteristic design of the rest of the bathroom furnishings. EDITION 300 does this beautifully.

ELEGANCE

VARIETY AS A PRINCIPLE

THE DESIGN CLASSIC WITH PROFILE

Initially begun in 1967 purely as line of accessories, ELEGANCE established itself internationally over the decades and became the biggest selling bathroom series in the world. Today, ELEGANCE offers a comprehensive assortment with a wide array of models. The demand for ELEGANCE products still remains steady today thanks among other things to its timelessly modern design.

SENSUAL PERFECTIONISM

Complete bathroom furnishings with many different design options: Again and again ELEGANCE sets trend-setting accents for the future in the bathroom. Whether cupboards, lights and mirrors, fittings, vanity units or accessories, you experience a collection that combines perfection and sensuousness in a highly aesthetic way.

PERFECTLY DESIGNED LIGHT SOURCES

Bright but not glaring: The light mirror stylishly provides indirect lighting. The front surface of the horizontal lighting element also has a mirror. The solitary lights with light opening on the sides are perfectly coordinated.

EFFUSIVE FLEXIBILITY

Combinations à la carte: Shower solutions can be flexibly adjusted to suit all spaces and your personal preferences, of course. Hand shower or head shower, flush or surface mounting – the choice is all yours.

Right angles and straight lines, coupled with vibrant curves. As in the entire collection, ELEGANCE fittings convince by their striking, classic-modern design.

Single lever basin mixers are available both for single hole installation as well as a concealed solution. The single lever bath tub mixer for installation on the tub edge rigorously carries on the ELEGANCE aesthetic.

HIGHLIGHTS

A level of quality that one not only sees, but appreciates: ELEGANCE fittings and accessories are perfect down to the finest detail. The special brilliance of the immaculate, hand-polished chrome surfaces transforms their use into an aesthetic experience.

Whether for soap foam or lotion, whether as free-standing or mounted model, ELEGANCE soap dispensers are an attraction in every bathroom. The same goes for the soap holder and tumbler holder.

The ELEGANCE rail system brings elegant comfort into the bathroom: The rail system can be combined as needed with the existing bathroom furnishings.

The matching shower curtains from KEUCO are anti-bacterial, fungicidal, antistatic and available in different colours and sizes.

ROYAL 60

LINEAR, PURE
AND SIMPLE

ARCHITECTURALLY ORIENTATED INTERIOR DESIGN

Clear, linear and minimalist – that is the new concept of KEUCO's ROYAL 60 collection. The sleek design, so full of lightness, comes to the fore thanks to its restraint – for your own personal vision of modern bathroom design. Its formal reduction creates calmness and accentuates the geometry of the room. This design relies on understatement that is beyond time and fashion trends. ROYAL 60 – the bathroom concept for minimalist aesthetes.

LINEAR, SLENDER AND CONTEMPORARY

Basin mixer and accessories EDITION 11

The furnishing concept ROYAL 60 from KEUCO presents itself with clarity and purity. Bathroom furniture and washbasins of the ROYAL 60 collection adhere to a linear language of form, and offer great combination potential. The rectangular washbasin with generous shelf space all round is available as single or double washbasin. For lovers of soft forms the EDITION 11 washbasin with its softly rolling lines is the ideal addition, thanks to the same width sizes of 700, 1050 and 1400 mm. Its unobtrusiveness brings the slender, exceedingly lightweight design to the forefront. The various EDITION 11 accessories and fittings are the perfect addition: Regardless whether you choose a single-lever basin mixer, a three-hole basin mixer or wall fitting. Combining with the fittings and accessories of EDITION 300 opens up a huge variety of possibilities in bathroom architecture too.

Stylish combination: ROYAL 60 vanity unit with EDITION 11 washbasin

MORE ROOM – EVERY DAY

Basin mixers EDITION 11

Towel holder EDITION 11

A classic rectangular shape, the ceramic washbasin stands out in particular thanks to its precision, high-quality workmanship and flat design. With generous storage space around the washbasin in three options in dimensions of 700, 1050 and 1400 mm, it offers individual and creative planning potential for bathrooms of all sizes. Together with the vanity unit, which, with its thin side panels takes up the filigree design style of the washbasin, this ensemble is a special gem in every bathroom. When combined with the fittings and accessories of EDITION 11 and EDITION 300 series, a large and diverse range of possibilities in bathroom architecture open up.

The inside of the vanity unit also has an impressive amount of storage space and a flexible system of dividers. The superior quality solid beech wood boxes inside the pull-out guarantee the best of order. The boxes prevent items stored inside from falling when opening or closing the drawer and can be adjusted or removed depending on personal needs; this gives the possibility of putting them where you need your bathroom utensils.

FULLY THOUGHT-THROUGH STYLE-ICONS

The architecturally orientated collection also offers a wide selection of products relating to light and mirrors. Besides attractive illuminated mirrors and mirror cabinets for plenty of storage space ROYAL 60 provides a further highlight: A built-in mirror cabinet with side lighting with clear and linear design. Installed concise with the wall, it is that "certain something" of upscale interior design. Of course the interior of the cabinet is equipped with the typical KEUCO comfort: Complete interior rear wall mirrored, sockets and many more features.

ROYAL REFLEX

THE SUBJECT OF GLASS REDISCOVERED FOR THE BATHROOM

Basin mixer PLAN blue, accessories PLAN

HYGIENIC, ROBUST, PERFECT

Even over the decades glass with a lacquered underside still loses none of its brilliance and its colour intensity. Because of the way it reflects light it adds a special atmosphere to every bathroom. ROYAL REFLEX is always an eye-catcher – whether in strong, powerful tones or in discreet colours. Consisting of washbasins, bathroom furniture, light mirrors and mirror cabinets, this furnishing concept leaves no wish ungranted.

PERFECT WORKMANSHIP, INTELLIGENT DETAILS

Basin mixer and lotion dispenser ELEGANCE

Our passion for detail makes daily use of ROYAL REFLEX a pleasure not only in terms of aesthetics, but also functionality. Contained behind the gently gliding front drawers with handles on the sides is a sophisticated storage system in which every bathroom utensil finds a suitable place. Intelligent storage details: The hanging wooden box is slidable and easy to take out. The dividers fixed by magnets on the base of the front drawer can be positioned as you desire.

A light, floating overall feeling of classical modernity is created by clear lines and reflected light. The wide range of surfaces and body variations adapt individually to a variety of living styles. Different materials in beautiful harmony: Lustred glass front and matt body; on top of this a cast mineral washbasin. Perfectly coordinated with this: The handle on the side in anodized aluminium.

ONE INDIVIDUAL SIGNATURE, MANY FORMATS

If glass is so important, then mirrors are indispensable. ROYAL REFLEX offers mirror cabinets and light mirrors in customary, outstanding KEUCO quality – matching all sizes from the double washbasin right down to compact models for the guest WC.

Unobtrusive elegance: Just as with the mirror cabinets, the light mirrors are also available in all six washbasin sizes. The mirror is framed on both sides by the vertical lighting. Glass shelves behind doors with mirrors on both sides offer plenty of storage space. Two interior electric sockets and one exterior light switch provide perfect functionality.

THE ESSENCE OF HARMONIOUS DESIGN

LANGUAGE OF FORM WITH CHARACTER

With its ROYAL UNIVERSE washbasin and furniture collection, KEUCO is enhancing its coveted mirror cabinet range of the same name, design and size. In this design, the designer, Reiner Moll has continued the attributes of the series. The high quality workmanship of the ceramic washbasins reflects the essence of design: Clear lines, soft corner radii and smoothly rounded edges summarize a consistent overall picture. The design of ROYAL UNIVERSE combines harmoniously with the fittings and accessories of KEUCO's COLLECTION MOLL or PLAN blue and PLAN. In the style of a modern classic, they underscore the design of the ROYAL UNIVERSE series perfectly.

FREEDOM TO DECIDE WITH ELEGANCE

The wide range of ROYAL UNIVERSE washbasins, with widths from 500 mm to a twin washbasin of 1300 mm, provides the right solution for every bathroom – from the small guest bathroom to the large family bathroom. The elegantly shaped ceramic washbasin looks both delicate and elegant. With its wide edges, it also offers a lot of storage space – particularly ideal for small bathrooms. Anyone with enough room and the need for additional storage space can complement the vanity unit with a tall, middle or base unit. The flexible system of dividers in the vanity unit offers a good overview and tidiness.

International electrical specifications on our products will vary according to individual countries' regulations and standards.

In accordance with our manufacturer's guarantee declaration, we assume a guarantee of five years for our products, provided that the product was verifiably purchased and installed by a franchised trade dealer.

The guarantee period commences with the date of delivery ex works. The statutory warranty period is included in the guarantee period. This guarantee excludes electrical components and light bulbs.

The extraordinary surface characteristics and extremely fine colour nuances of our products can only be reproduced to a certain degree in print. Only the original KEUCO products, which can be viewed in sanitary trade dealers' showrooms, can provide you with an optimum impression.

Reproduction and copying, even if only excerpts, are only permitted by explicit permission of the manufacturer, and with the inclusion of source information
